It is a long established fact that a student from Eurasia Education link UA Pvt. Ltd. never ever falls.

MBBS IN UKRAINE

www.eurasiaeducationlink.com

Statistical Surveys Says : "India has one (1) doctor for every eleven thousand (11k) people and one (1) nurse for four hundred and eighty three (483) people."

FROM FRONT DESK

Even after owning the highest number of medical colleges as a nation, India has a major issue of small class sizes with availability of seats for just a batch of hundred to one hundred and fifty (100-150) students; which can be said as a humongous hurdle for both the students and the nations. This infra structural issue is unsolved till now and has no scope of getting solved soon. To meet the demands of the students pursuing medical studies or potential future doctors , A change in the law was introduced to bring the advent of new private medical colleges easily, which resulted in the inauguration of the Private Medical Institutions funded by businessmen and politicians. Lack of experience and unreliable potential of how to run a medical college, resulted in just the mass commercialization of medical education rather than the skill development and preparation of new generation of doctors. Privatisation; instead of increasing reachability and facilities for medical aspirants, brought in the inability of genuine students to breakthrough their barriers to become a Doctor.

At this time of hiking prices of private medical institutes in India and lower availability of seats in government medical institutes of India, MBBS from Abroad comes out as one of the best option for medical aspirants in India. Eurasia Education Link UA Pvt. Ltd. comes into the role of being a bridge for students to get admission in the best of best medical institute in Abroad. Eurasia Education Link UA Pvt. Ltd. does not only provides assistance to get admission in the medical universities in abroad but provides complete companionship to all the students by not just welcoming them with warm hearts but to provide handhold assistance till our future doctors gets seated in their chosen medical university.

VALUES

Service
Hard-Work
Passion | Integrity

NATIONAL EXIT TEST (NEXT)

National Exit Examination (NEXT) is currently a proposed amendment to be brought in the form of a test that will be regulated at final year MBBS level for all the MBBS enrolled students in India. It is currently proposed under the National Commission Medical Bill (NMC). NEXT for MBBS is believed to be designed in order to assess the basic skills and knowledge of a medical student. It will serve as a licentiate examination, clearing which will promote meritorious students for medical practise post MBBS.

Eurasia is taking an initiative to prepare students for this hurdle in the best way possible by it's new program known as E.E. N.E.X.T Prep Classes.

TO PARENTS

- > Obtain & send tourist invitation.
- > Reservation of hotels.
- > Transferring our clients from airport to hostels.

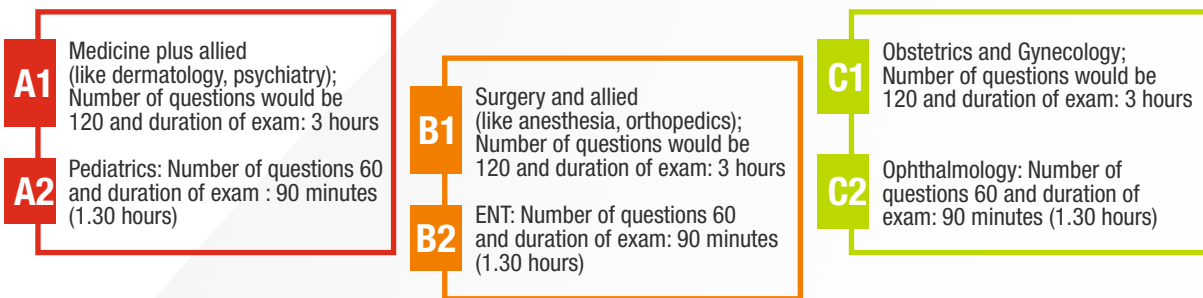

Mr. Mehboob Ahmed
Managing Director

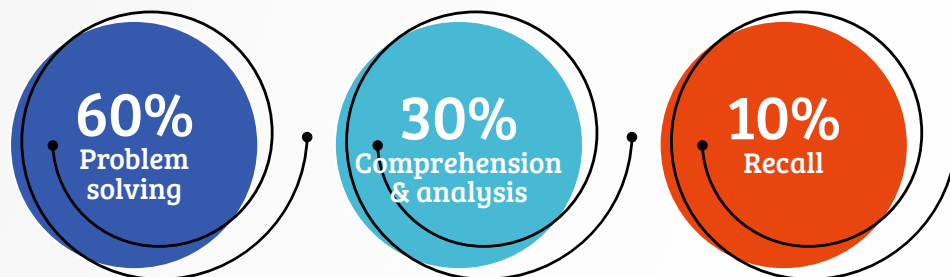

NEXT & its impact on FMGs :

1. The policies which are being framed at present are discussed considering indian medical graduates.
2. NEXT-1 would be an online exam mainly based on clinical subjects.
3. There would be 3 papers :

4. In every paper, 10% questions would be from non-clinical (anatomy, physiology, biochemistry, pathology, pharmacology) subjects and 10% from PSM.
5. The pattern of questions would be:

Exam would be conducted on 3 days.

This NEXT-1 would also act as a PG exam. Marks score would be used to make a merit for PG seats.

6. Every FMG had to appear in NEXT-1. If he qualifies this, then only he can do internship. After completing internship, he would appear in NEXT-2, which would be conducted at local level (on the same college/ hospital, from where student had completed internship.)

After clearing NEXT-2, he would be enrolled in medical council and would also get PG seat as per his marks obtained in NEXT-1.

If one doesn't clear NEXT-2, he can't get a license nor he can join PG course.

We have tried to simplify the things based on inputs received. But still we would say, that it's too early to comment a final word.

We expect some changes in this.

We think, NEXT-1 would be implemented in March 2022.

QUALIFICATION & ELIGIBILITY

- Student must have passed higher secondary examination or ISCE equivalent to 10+2 Higher Secondary Exam.
- Minimum 50% in Physics, Chemistry and Biology. (40% for Reserved category)
- Minimum 17 yrs of age completed on or before 31st Dec. of year of admission.

WHY STUDY UKRAINE ?

- Quality Education.
- Globally Recognized Courses (WHO, UNESCO, EURO PEAN COUNCIL, MCI etc.)
- Cost effective
- European Life Standard.
- Worldwide Acceptance of Ukrainian Method of Teaching.
- English Medium of Instruction.
- No Donation on capitation fee.
- World class infrastructure.
- Study in Top National Medical Universities recognized by MC9 and WHO.
- International Exposure.

MBBS IN RUSSIA FROM TOP MEDICAL UNIVERSITIES

Russia has been popular destination for International students for pursuing MBBS right from Soviet Era. Russia boasts about occupying almost 30 positions amongst top 100 ranking Medical Universities according to the World Health Organization (WHO)'s "Directory of World Medical Schools". Pass-outs from Russian Medical Universities are presently working in the leading Hospitals across the globe. MBBS in Russia is a preferred choice for International students because of highly subsidized fee by Russian Ministry of Health & Education as compared to other western countries. High Quality of Education combined with this low cost is one of the main reasons for choosing top medical universities of Russia for MBBS. There are almost 57 medical universities in Russia. The student to teacher ratio is 7:1 in all Russian Medical Universities. About 12 of these universities provide MBBS in English Medium.

In the past decade there has been a tenfold increase in number of international students travelling for MBBS in Russia. All universities are recognized by WHO & Medical Council of leading countries like U.S.A, U.K, middle east, Australia, India, Canada etc.

Duration of MBBS in Russia in English Medium is 6years. Students can also opt for MBBS in Russian Medium. Duration of which is 7 years which includes 1 year as Russian Language Training (Preparatory Faculty)

Why MBBS in Russia

Medical Study in Russia is very easy for a normal student because any student from all over the globe can take direct MBBS Admission without any entrance exam. MBBS fee in Russia is very low because the Russian Government provides subsidy for education. Average MBBS fee in Russia is between 2.5 Lacs to 5 Lacs per year. All Russian Medical Universities are listed in WHO and MCI so a student who gets an MBBS degree from Russia can practice anywhere in the world including India. Students from all over the globe go to Russia for MBBS Study and all medical universities provide quality medical education and practical knowledge. Students get fully furnished hostel facility inside the university campus with fresh and quality food. MBBS Students can get scholarship also if they fulfill the scholarship criteria. All MBBS students in Russia get Medical Insurance for all courses and get full medical treatment when they need. Students get training for MCI screening test during the medical course and professors are well aware about the MCI screening test. Medical courses are taught in English and Russian languages, MBBS students also get training to learn Russian Language because by learning Russian language a student can communicate with patients in the hospital during the time of medical practice.

Benefits of MBBS in Russia for Indian Students 2020

- No Entrance exam & No Donation.
- Easy Admission Procedure
- Low & Subsidized course fees.
- Worldwide Recognition of the Degrees provided by Medical Universities of Russia.
- European Standard of Living
- Indian Canteen is Available in most of the Universities.
- Excellent Result in MCI Screening Test (Only Rus Education provides MCI Coaching in Russian Medical Universities)
- Reference Available of Students working in Leading Hospitals Across the World (our pass outs are working not only in India but in Australia, Canada, USA, UK and other major countries across the globe)

PHILIPPINES TOP UNIVERSITIES

AMA UNIVERSITY PHILIPPINES

AMA University was founded in 1980 by Dr. Amable R. Aguiluz V who saw the demand for professionally trained computer professionals in the country that time. Focusing mainly on computer related programs, AMA was indeed an institution that falls under the classification of “computer school” even back then. Currently, AMA has extended its field of expertise by offering other programs, but nevertheless, all programs include subjects that would help its students become proficient in technology.

UNIVERSITY OF PERPETUAL HELP

UNIVERSITY OF PERPETUAL HELP PHILIPPINES

Antonio Laperal Tamayo and Dr. Daisy Moran Tamayo founded the Perpetual Help College of Rizal (PHCR) on February 5, 1975.

ABOUT

GEORGIA

Georgia is a European country located at the intersection of Eastern Europe and West Asia. This country shares its borders with the Black Sea in the west, Russia in the north, Turkey and Armenia in the south and Azerbaijan in the Southeast. The capital of Georgia is Tbilisi which is known for its diverse architecture and mazelike, cobblestone streets. The major area of the country is covered with mountains.

The Likhi Range divides the country into eastern and western halves. The eastern part of Georgia faces hot summers and cold winters while the climate in the western part is influenced by elevation.

Georgia is a member of the Council of Europe, OSCE and Eurocontrol. It is also a part of the European Union's Free Trade Area since 2014. Georgia has shown a commendable growth from a near-failed state in 2003 to a relatively well-functioning market economy in 2014. Georgia has also been named as the World's number one economic reformer by the World Bank.

Georgia has maintained good relations with its neighbors and is a member of the United Nations, the Council of Europe, the World Trade Organization, the Organization of the Black Sea Economic Cooperation, the Organization for Security and Cooperation in Europe, the Community of Democratic Choice, the GUAM Organization for Democracy and Economic Development, and the Asian Development Bank.
